Nimbus Cloud, Inc.

ENERGY AND WATER DISCLOSURE

Invoice number: NC-2609
Billing period: September 2026
Region: us-east-va (Virginia)

IT equipment energy attributed to this account: 36,900 kWh
Power usage effectiveness (PUE), facility average: 1.36
Water usage effectiveness (WUE): 0.43 L/kWh
Method: metered rack power for dedicated hosts; shared hosts allocated by vCPU-hours.
Facility energy = IT energy x PUE. Water = IT energy x WUE.

FICTIONAL DOCUMENT - created for the Carbon Room hackathon demo. Brightwell Manufacturing and every name, address and number here are invented. Not a real bill.
